	Balloons	Toucans	Rockets
Writing	<p>Print Awareness and Alphabet Knowledge -understands that words can be written down and read -points to words using a left to right progression when reading picture books -recognizes or read several words -associated sounds and written words -identifies all letters of the alphabet</p> <p>Early Writing -labels drawings with letters -represents ideas, stories, and experiences through pictures to represent ideas, to writing recognizable letters -copies or writes familiar words and own name</p>	<p>Print Awareness and Alphabet Knowledge -points to words using a left to right progression when reading picture books -recognizes or read several words -identifies all letters of the alphabet and their sounds -can reproduce all letter of the alphabet</p> <p>Early Writing -can print own name -represents ideas, stories, and experiences through pictures to represent ideas, to writing recognizable letters -copies or writes familiar words -can recognize and write number words one to ten</p>	<p>Print Concepts -can demonstrate understanding of the organization of basic features of print -can construct simple sentences</p> <p>Opinion Pieces -use a combination of drawing, dictating, and writing to state an opinion about a book they have read</p> <p>Explanatory/ Informative Texts -use a combination of drawing, dictating, and writing to name what they are writing about and supply some information about the topic</p> <p>Narratives -use a combination of drawing, dictating, and writing to narrate a single event or several loosely linked events, tell about the events in the order they occurred, and provide a reaction to what happened</p>

	Balloons & Toucans	Rockets
Counting & Cardinality	<p>Knows number names and sequence -counts and writes to 30 by ones and tens -counts forward and backward beginning from any number -skip-count by 5s and 10s</p> <p>Count to tell the number of objects -count to answer “how many?” -understand that each successive number is one larger -uses wooden boxes with slits to count dots and pictures -can complete dot-to-dots independently: up to 10 -can count on an abacus and with various manipulatives</p>	<p>Knows number names and sequence -counts and writes to 100 by ones and tens -counts forward and backward beginning from any number -skip-count by 2s, 5s and 10s</p> <p>Count to tell the number of objects -understand that each successive number is one larger -count to answer “how many?” -tally marks: up to 100 -number lines: up to 100</p>
Operations & Algebraic Thinking	<p>Understand addition and subtraction -add/subtract with pictures: within 5 -add/subtract with objects: within 5 -use objects, TouchMath, mental images, drawings, sounds/acting, expressions, and equations to represent addition and subtraction -decompose numbers less than or equal to 5 in more than one way ($5=2+3$ and $5=4+1$) -for any number from 1 to 5, find the number that makes 5 when added</p> <p>Patterns -similar patterns -ab, aabb,</p> <p>Estimation / Probability -determine fewer or more</p>	<p>Understand addition and subtraction -add/subtract with pictures: within 20 -add/subtract with numbers: within 20 -add/subtract sentences: within 20 -addition/subtraction word problems -use objects, TouchMath, mental images, drawings, sounds/acting, expressions, and equations to represent addition and subtraction -decompose numbers less than or equal to 10 in more than one way ($10=2+8$ and $10=9+1$) -for any number from 1 to 9, find the number that makes 10 when added</p> <p>Patterns -similar patterns -ab, aabb, abb, abc patterns</p> <p>Estimation / Probability -determine fewer or more -guessing jars</p>

	Balloons & Toucans	Rockets
Numbers & Operations in Base Ten Fractions Vocabulary	Positions -inside and outside -top, middle, bottom -above and below	Work with numbers 0-50 to gain foundation for place value. -compose and decompose numbers form 0-50 into tens and ones Positions -inside and outside -left and right -beside, adjacent -top, middle, bottom -above and below Fractions -equal parts -identify halves -use unifix cubes, rods and units, and an abacus to illustrate tens and ones
Geometry	Shapes -Identify circles, squares, triangles, rectangles, ellipses, cubes, and pyramids	Shapes -Identify two-dimensional shapes including hexagons, trapezoids, parallelograms, and rhombi -Identify three-dimensional shapes: cubes, rectangular prism, sphere, pyramid, and ellipsoid -describe the position of shapes using prepositions Sizes -long and short -tall and short -light and heavy -holds more or less -compare height, weight, and capacity -wide and narrow

	Balloons & Toucans	Rockets
Measurement & Data	<p>Describe and compare measurable attributes. -compare two objects -use manipulatives and objects (bears, pumpkins, apples) to measure and compare attributes</p> <p>Sorting, ordering & classifying -same -different -classify by color</p> <p>Time -days of the week -seasons of the year -months of the year</p>	<p>Describe and compare measurable attributes. -describe attributes of objects (length, width, color, shape, size, etc.) -compare two objects with a measurable attribute in common, to see which object has more of/less -use manipulatives and objects (bears, pumpkins, apples) to measure and compare attributes</p> <p>Sorting, ordering & classifying -classify objects into categories -same and different -classify by color</p> <p>Time -days of the week -seasons of the year -months of the year -identify the months that correlate with the seasons -tell time in hours and half-hours -match clocks and times -read and write times -tell times of everyday events -match analog and digital clocks -seasons -A.M. and P.M.</p> <p>Money -coin names and values: penny through quarter -count pennies, nickels, and dimes</p> <p>Data & Graphs -picture graphs -bar graphs -use theme objects to create graphs</p>

	Balloons	Toucans	Rockets
Science	<p>Matter & The Physical World -reacts to various sensations such as extreme temperatures or tastes -explores environment -enjoys messy activities with water and food -uses tools to reach items out of reach -uses tools to obtain results (dig, cut, etc)</p> <p>Force, Movement & Energy -repeats action to produce desired effect -repeats activity that produces an interesting result -plays with a variety of toys to produce effects -throws or drops objects to see the effects</p> <p>Investigations -uses senses for sensory exploration -uses adults to solve problems -solves simple problems through repeatedly trying different solutions -asks questions related to events in the environment</p>	<p>Matter & The Physical World -explores a variety of materials to learn about weight, size, texture, shape, color, and temperature -uses a variety of tools and objects to explore and discover the world and how things work in the world -makes observations and predictions, and tries things out to discover what will happen -experiments with the effects of personal actions on objects -identifies and discusses changes that occur in nature and manmade materials over time</p> <p>Force, Movement, & Energy -show curiosity and inquiry through play -explores objects and materials and their impact on one another -observes and explores different ways objects and materials move and change</p> <p>Investigations -shows curiosity through exploration of objects and materials -begins to ask scientific questions and use observations in making predictions and formulating theories about how things work -uses appropriate materials for problem-solving and exploration of the physical world -explores possible answers to simple science based questions through investigations</p>	<p>Living & Non Living Things -can identify non-living things -can identify living things -can describe what living things need -can identify and describe observations -can sort objects by what they are made of -can describe objects by their characteristics -can sort objects by their characteristics -can use sense to make observations</p> <p>Plants & Animals -can identify some ways animals are alike and different -can identify some ways plants are alike and different -can match young animals with their parents -can describe ways baby animals change as they grow -can tell how plants change as they grow -can identify some plants and animals that live on land -can identify some plants and animals that live in water</p> <p>Earth Science -can record the temperature of soil, air, and water in different areas -can identify objects seen in the sky during the day and night -can describe the position of objects seen in the sky</p>

	<p>Data & Results -sorts objects into categories -describes objects in the environment using simple properties -records events through story telling</p> <p>Organisms -inspects surroundings -explores features -responds differently to adults and children -matches sounds to animals -identifies many animals in pictures -identifies the difference between living and non-living organisms</p> <p>Diversity, Interdependence & Earth -role plays affections and care with dolls or stuffed animals -shows understanding of the needs of animals at home and in the environment -attempts to comfort other in distress -understand the impact of actions</p>	<p>Data & Results -collects, describes, and records information through a variety of means: including discussion, drawing, graphing, tallying, photographing, and writing -shows ability to predict and explain results of a simple investigation -describe patterns and relationships, and discusses things that are alike/different -shows ability to measure time, length, distance, and weight</p> <p>Organisms -notices similarities, difference, and categories of plants and animals -describes similar characteristics of living things -has an understanding of family -shows growing understanding of and respect for living things in the environment</p> <p>Diversity, Interdependence & Earth -recognizes and respects that living things have unique needs such as food and water -demonstrates understanding that living things grow and change over time -recognizes differences in non-living earth materials -develops awareness and beginning understanding of changes in the weather and seasons -observes the characteristics and movement of the sun, moon, stars, and clouds</p>	<p>Physical Science -can describe where an object is located using position words -can identify how a push or pull makes objects move -can compare objects that move on their own and objects that cannot move -can compare objects by how fast they move -can use materials and simple tools to build structures -can create a structure to solve a problem -can describe the parts of a whole object -can use parts to build a structure -can take apart a structure to show each part</p>
